# World View

The World will not esteem God's word nor see it as God's truth.

---

The world does not desire to know or understand God's truth, and lends itself to superstition of many kinds.

---

The world is caught up in theories and wild ideas that sound plausible to them.

01

When we pray for our angel's help, we will often find feathers as a sign that our angels are working with us.

02

Pope John Paul II recommended praying to other people's angels too. When he was calling for an end to the arms race in the 1980's, Pope John Paul II prayed to Ronald Reagan's guardian angel before meeting with him.

03

Often our guardian angels will connect with us through gentle, repetitive thoughts.... These repetitive thoughts are accompanied by feelings of peace and serenity.

04

Pay attention to synchronicities in your life because often your guardian angel is behind this.

05

Tuck it (your question or problem) under your pillow and pray that your angels connect with you in the dream state to give you assistance and guidance.

01

Finding pennies, dimes, or other shiny coins in unexpected places can be an angel's way of telling you that you have divine support in building an abundant life that is truly meaningful to you.

02

Finding feathers, especially large ones, in places where they are not commonly found can be a sign that your angel is giving you encouragement to keep going on your path because you are certainly headed in the right direction!

03

Seeing cloud shapes of an angel, face, flower, heart, or other symbols in the sky can be signs from your angel to remind you that you're never alone in your journey.

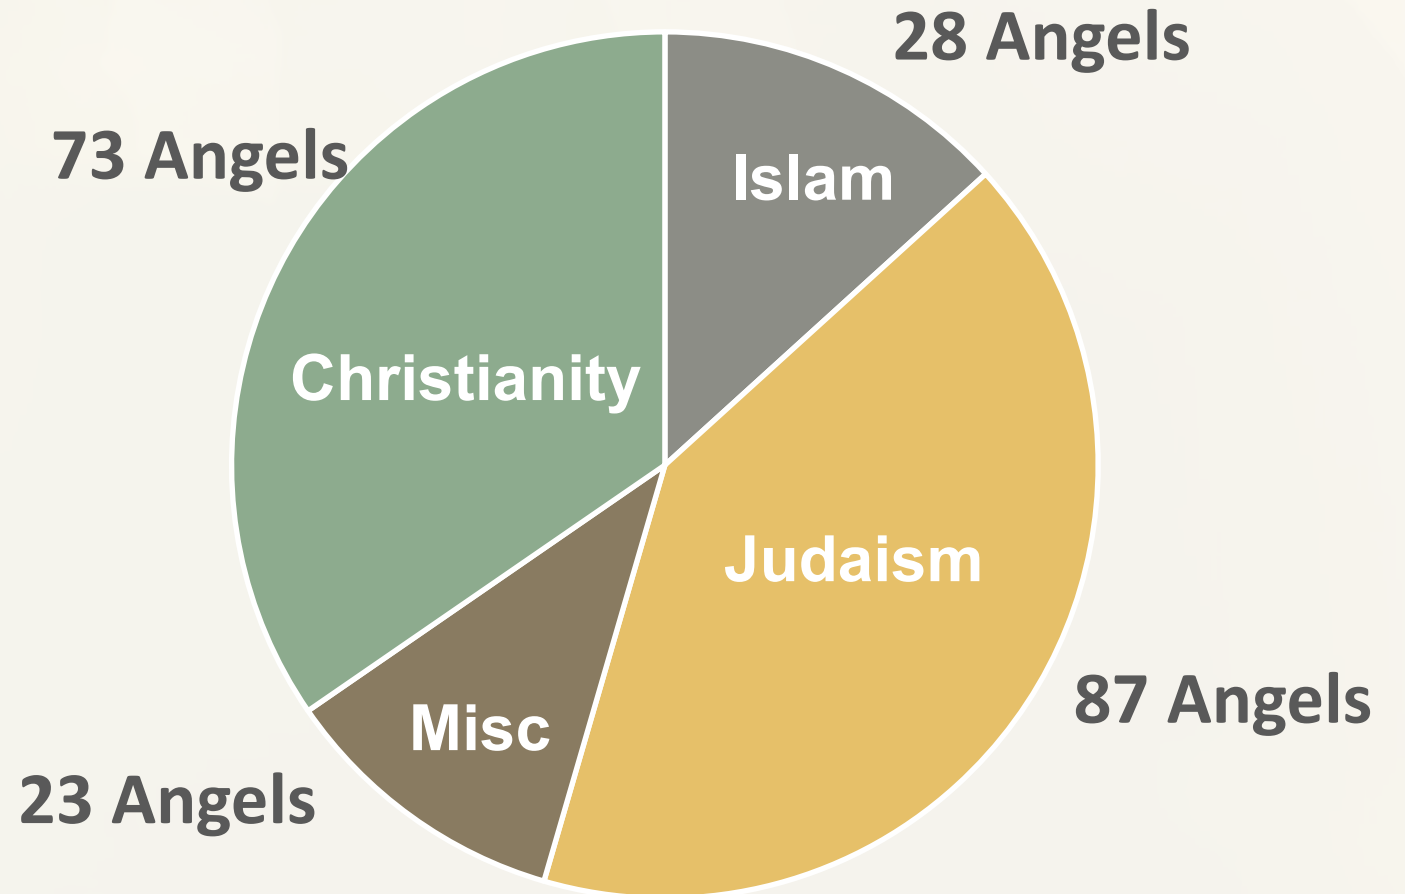

04

Seeing giant spirals, auras, orbs, flashes of light, or sparkles of colored light can be a sign that you're surrounded by angels, and they can take the energetic form of "light" to comfort you.

05

Seeing a hummingbird, butterfly, dragonfly, or another animal that crosses your path unexpectedly can be an angel sign.

# Known Truth and Error

## Truth

Wheel which is part of God's throne hold the spirit of the Living Creature.

Eyes in the wheels.

Great thunderous noise.

Chariots of angels used by our Creator.

## Error

Disc which holds flight deck and aliens.

Propulsion system.

Exhaust from engines.

Spaceships for aliens.

# Conclusions

God's word is the exclusive resource for truth. The more people know, the more they can discern the spirits.

---

World view of angels will always be incorrect, because the enemy deceives and distorts the truth. But one must be careful not to bring in the world garbage when considering Adonai's Created angels.

---

If we ignore supposition, preconceived notions, old wives tales or images from Hollywood, we will see something amazing. The angels contrived of fables are feeble, weak, and effeminate. But the angels designed by God are strong, powerful, graceful, and effective.

---

Could Yeshua return on His Chariots and the world thinks it is an invasion of aliens?
